**DETAILED ACTION**

***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-16, drawn to system storing and using a compressible gas including a pipe, chilling member and a turbine generating energy, the turbine consuming gas stored in the pipe, classified in class 60, subclass 39.281.
- II. Claims 17-37 and 59-67, drawn to system for storing and transporting natural gas comprising a vehicle, classified in class 62, subclass 53.2.
- III. Claims 38-58, drawn to a modular system for storing gas comprising a plurality of pipes and a structural frame to support the pipes, classified in class 137, subclass 259.
- IV. Claim 68, drawn to a method of supplying gas from a source that supplies gas at a variable rate to a consumer that uses gas at a constant rate, classified in class 60, subclass 773.
- V. Claim 69, drawn to an apparatus for testing a well comprising a production module and gas and liquid storage, classified in class 73, subclass 152.53.
- VI. Claim 70, drawn to an apparatus for supplying gas to a power plant comprising a plurality of pipes, the pipes storing the gas as a supercritical gas.

Art Unit: 3753

Inventions of Groups I-IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of Group III has separate utility such as storage of a liquid product, such as water. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for one Group is not required for the other Groups, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to KEVIN L LEE whose telephone number is (703) 308-1025. The examiner can normally be reached on MONDAY-THURSDAY.
